

PURPOSE-BUILT MARKER INNOVATION

RECYCLED PLASTIC

Resource-efficient due to certificated recycling (PCR = EuCertPlast, PIR = DIN Certco): The economical Sketcher is the Twin Marker from tomorrow! SUSTAINABLE, thanks to 95%* recycled plastic and ENVIRONMENTAL-FRIENDLY, because of a high tech production in Germany. 🇩🇪

INNOVATIVE CARTRIDGE SYSTEM

Create YOUR own modular color competence, with more than 60,000 combination possibilities! 120 intensive, rich AquaPro colors and 3 tip shapes create YOUR own room to design. The innovative cartridge system with a robust locking function enables you a clean and easy cartridge exchange - without buying a new marker.

ESTHETICS OF QUALITY

The ergonomic marker shape with eroded surface for a nice grip feels good and stable in the hands - perfect for clean concept art, accurate sketches and constant-floating colorations. The specifically developed AquaPro ink has a good UV resistance and dries extraordinarily fast, comparable to alcohol-based inks.

Product development in cooperation with Schneider Schreibgeräte GmbH, (sustainable, EMAS certificated, competence center for writing instruments for more than 80 years, quality production in Germany)
